

E.S Mini Manifesto

1) People shouldn't take the word of someone who isn't allowed to vote over someone who is allowed to vote. If their voting rights have been taken away, why would you take their word over someone who is allowed to vote?

End confusion there.

2) Remove racism with dictatorship and not with Democracy. It's the only way to do it. This isn't something that needs to be voted on.

That would be impossible.

When it comes to situations like this an iron fist needs to be placed inside of a velvet glove. No exceptions.

3) The citizens should workout regularly. Timing depends on their schedule.

I recommend 45min-1hour 3-5 days per week.

Working out brings confidence and encourages order in one's life making it easier to problem solve.

4) Planting trees and preserving nature should have actually been number 1.

Saving the earth has never been more important now than ever.

To put it simple "No nature, no humans".

5) Entrepreneurship, teamwork, and trust should be promoted within the family

structure. Who knows when or if a country's economy will slip into a depression

or a recession. Better to be safe than sorry.

6) New E.S Mini Manifesto (Rule):

If you live inside of the United States Of America, and you don't vote for a

President. You're considered to be less than a *citizen*.
